T5 Energy Saving Fluorescent Lamp & Electrodeless Lamp

- Features Save power up to 40% • Last up to 10000 hours or 60000 hours • Easy and convenient to retrofit • No starter and compensatory capacitor needed • Low total harmonic distortion, good for power grid • Fast starting, no flash, low noise • Power saving does not sacrifice brightness • Operational between -10°C~55°C • Input voltage range: 180V~240V • Low working temperature, safe and reliable • Unique design and elegant • Produce best result with triphosphor coating fluorescent tube

Solar Power System for Homes or Building

- Features We custom build solar power system Suitable for home use • Green Energy Add value to your home Guarantee 20 Years of solar panels usage

LED Fluorescent Tube

- Features Energy saving – half the power consumption at the same luminance Good for the environment: no hydrargyrum, ultra-violet and infra-red rays Long life – more than 50000 hours of life span Easy to install – direct replacement of traditional fluorescent tubes

Solar Hot Water Heaters

- Features High efficiency withstanding pressure of 6 bar of city water pressure, easy to install. Capacity ranges from 150-300L.

Solar Street Lamps and Yard Lamps

- Features We have many different styles and power, please send us your requirement and we will do our best to offer you our lowest price.

Central or Split Air-conditioning Waste Heat Recovery System

- Features Free hot water • Free heating • Lower energy cost More efficient refrigeration cycle means longer equipment life • Instantaneous hot water available.

High Efficiency Heat Resistant Coating for Glass

- Features Lowering indoor temperature 3°C– 8°C, that means a cost saving of 30%-40% of air-conditioning cost. Effective in filtering Infra-red and Ultra-violet lights Long lasting and easy to apply • Retain the transparency of glass, only reduce 20% of the transparency of glass after applying on the glass. Environmental Friendly product – it is water soluble, odorless and harmless.

High Performance Elevator Energy Saving Cabinet

- Features Energy saving up to 30% First class technique Improve the Elevator System's working condition Perfect Brake Performance Noise filtering Easy to install Powerful functions

Mobile Evaporative Air Cooler

- Features Very reliable Low price Low energy consumption 3 adjustable speed Automatic swinging diffuser Full function remote control Easy to use, clean and install

APS Mission: Helping you to build a better living environment

Rm.1009, 10/F., Block B, Sea View Estate 4-6 Watson Rd., North Point, H.K.
